10 Opportunities	Monitored	Portfolio Average	Portfolio Average	Ceiling Value

EXECUTIVE ASSESSMENT

Overall Market Outlook

The federal procurement landscape is currently marked by significant modernization and cloud migration initiatives, particularly within the Department of Defense and General Services Administration, alongside a series of bridge contracts signaling imminent, high-value recompetes. While incumbent advantage remains strong in routine operations and maintenance, strategic transitions and a notable contract termination present immediate competitive openings for agile capture teams.

KEY TAKEAWAYS

- **Imminent Recompete Wave:** A cluster of bridge contracts, especially within GSA's CDM DEFEND program, indicates a forthcoming wave of high-value competitive opportunities that require proactive engagement.
- **Modernization & Cloud Focus:** Agencies are heavily investing in cloud migration, wireless modernization, and advanced ISR/systems engineering, signaling strategic priorities for digital transformation and enhanced operational capabilities.
- **Incumbent Vulnerability:** A significant contract termination highlights that even large, established programs can become competitive due to incumbent underperformance, creating immediate openings for new entrants.

STRATEGIC MARKET THEMES

Cloud & Digital Transformation

Pipeline Value: \$615.8M | Representative Events: 3

Executive Insight

Agencies are aggressively pursuing cloud adoption, wireless modernization, and digital transformation to enhance operational efficiency and mission capabilities. These initiatives represent strategic shifts in how critical services are delivered, moving beyond mere IT upgrades.

Capture Implication

Position your organization as a leader in secure cloud migration, enterprise-wide modernization, and complex systems integration. Highlight successful transitions and a proven ability to ensure operational continuity during significant technological shifts.

Cybersecurity & Infrastructure Protection (CDM DEFEND)

Pipeline Value: \$1773.8M | Representative Events: 4

Executive Insight

The GSA's CDM DEFEND program is a multi-faceted, high-priority initiative aimed at securing federal networks. The numerous bridge contracts indicate a complex, large-scale recompetes is on the horizon, with significant ongoing investment and a critical need for robust cybersecurity solutions.

Capture Implication

Develop a comprehensive CDM strategy, identify key GSA stakeholders, and actively seek teaming opportunities with current prime or sub-contractors. Emphasize deep expertise in federal cybersecurity frameworks, threat detection, and incident response.

Specialized Mission Support

Pipeline Value: \$168.7M | Representative Events: 2

Executive Insight

Agencies require highly specialized support for critical missions, ranging from Intelligence, Surveillance, and Reconnaissance (ISR) and systems engineering for defense to meteorological development for national weather services. These roles demand deep domain expertise and a proven track record.

Capture Implication

Showcase niche technical capabilities and strong past performance in similar mission-critical environments. Focus on understanding the specific operational challenges of these programs and demonstrating the ability to deliver tailored, high-impact solutions.

AGENCY CONCENTRATION

General Services Administration

Opportunities	Pipeline Value	Avg Priority	Recommendation
5	\$2224.0M	High	Prioritize active capture engagement.

Department of Defense

Opportunities	Pipeline Value	Avg Priority	Recommendation
3	\$183.3M	High	Prioritize active capture engagement.

Department of Commerce

Opportunities	Pipeline Value	Avg Priority	Recommendation
1	\$13.7M	High	Prioritize active capture engagement.

Department of Transportation

Opportunities	Pipeline Value	Avg Priority	Recommendation
1	\$587.5M	High	Prioritize active capture engagement.

PRIORITY CAPTURE OPPORTUNITIES

ACTIVE CAPTURE

ISR Systems Engineering Transition

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
FA875025FB015	Department of Defense	\$155.0M	2028-07-12	Booz Allen Hamilton Inc

Intelligence Summary

Business Event: Program Transition / New Requirement
Competitive Impact: Imminent Recompete / New Opportunity
Program Health: Healthy
Expected Next Event: RFP release or detailed solicitation

This event signifies a major program transition for critical intelligence and surveillance capabilities, indicating a fresh competitive landscape despite an incumbent. The broad scope across architecting, engineering, development, integration, testing, and sustainment suggests a significant, multi-faceted opportunity.

WATCH ITEMS & INCUMBENT RISK

- ****Incumbent Risk:**** Existing contractor relationship (Booz Allen Hamilton Inc) may influence recompetete strategy.
- ****Timing Risk:**** Expiration window remains distant; requirements and acquisition strategy may shift.
- ****Scale Risk:**** Opportunity size and complexity will likely require strategic teaming.

RECOMMENDED ACTION

Engage early with Air Force stakeholders to assess the full scope of ISR, assurance, and fielding mission requirements. Identify potential teaming partners with complementary systems engineering and integration capabilities.

ACTIVE CAPTURE

Air Force Weather Cloud Migration

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
FA460024F0027	Department of Defense	\$9.8M	2027-08-07	Science Applications International Corp

Intelligence Summary

Business Event: Cloud Migration Initiative
Competitive Impact: Imminent Recompete / New Opportunity
Program Health: Healthy
Expected Next Event: RFP release or detailed solicitation

This transition indicates a clear agency focus on cloud adoption and modernization for critical weather capabilities. Despite the presence of an incumbent, the 'Competitive Opening' classification means this is a fresh opportunity for firms with strong cloud migration expertise.

WATCH ITEMS & INCUMBENT RISK

- ****Incumbent Risk:**** Existing contractor relationship (Science Applications International Corp) may influence recompetete strategy.

RECOMMENDED ACTION

Validate the Air Force Weather's specific cloud migration strategy and technical requirements. Assess your organization's capabilities to expedite transitions from on-premises to virtual private cloud environments.

ACTIVE CAPTURE

National Weather Service Support Recompete

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
1305M224F0258	Department of Commerce	\$13.7M	2027-09-28	Arch Systems Llc

Intelligence Summary

Business Event: Contract Recompete
Competitive Impact: Imminent Recompete
Program Health: Healthy
Expected Next Event: RFP release

This is a direct recompile for critical support services to the National Weather Service. While an incumbent likely holds an advantage due to operational experience, the 'Competitive Opening' classification confirms it is an active competition for this essential program.

WATCH ITEMS & INCUMBENT RISK

- **Incumbent Risk:**** Existing contractor relationship (Arch Systems Llc) may influence recompile strategy.

RECOMMENDED ACTION

Assess the incumbent's performance and identify potential areas for differentiation. Develop compelling win themes focused on enhancing meteorological development and technology integration for the National Weather Service.

ACTIVE CAPTURE

Marine Corps Wireless Modernization Bridge

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
M6785425F4900	Department of Defense	\$18.5M	2027-06-30	Decisiveinstincts, Llc

Intelligence Summary

Business Event: Bridge Contract Award
Competitive Impact: Imminent Recompete (following bridge)
Program Health: Healthy
Expected Next Event: Full competitive solicitation

The award of a bridge contract indicates a delay in the follow-on competitive award, but also confirms continued, significant investment in wireless modernization across multiple Marine Corps bases. This is a high-value, multi-site opportunity that will eventually be competed.

WATCH ITEMS & INCUMBENT RISK

- ****Incumbent Risk:**** Existing contractor relationship (Decisiveinstincts, Llc) may influence recompet strategy.

RECOMMENDED ACTION

Monitor closely for the release of the full competitive solicitation. Engage with Marine Corps base commands to understand specific wireless modernization requirements across multiple installations.

ACTIVE CAPTURE

Major Contract Termination Opportunity

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
47QFCA22F0018	General Services Administration	\$450.3M	2027-04-03	General Dynamics Information Technology, Inc.

Intelligence Summary

Business Event: Contract Termination / Scope Adjustment
Competitive Impact: Incumbent Underperformance / New Opportunity
Program Health: Distressed
Expected Next Event: New solicitation or rapid recompile

A contract termination due to incumbent weakness creates an immediate, high-priority competitive opening. This indicates dissatisfaction with current performance, offering a significant chance for new entrants to capture a substantial program.

WATCH ITEMS & INCUMBENT RISK

- **Incumbent Risk:** Existing contractor relationship (General Dynamics Information Technology, Inc.) may influence recompile strategy.
- **Scale Risk:** Opportunity size and complexity will likely require strategic teaming.

RECOMMENDED ACTION

Investigate the specific reasons for the contract termination to understand agency pain points and incumbent weaknesses. Prepare for a rapid response to a potential new solicitation, highlighting past performance in resolving similar program challenges.

ACTIVE CAPTURE

CDM DEFEND Group BD Bridge

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
47QFRA24F0006	General Services Administration	\$663.1M	2027-04-30	Booz Allen Hamilton Inc

Intelligence Summary

Business Event: Bridge Contract Award
Competitive Impact: Imminent Recompete (following bridge)
Program Health: Healthy
Expected Next Event: Full competitive solicitation

This bridge contract is part of the critical CDM DEFEND program, indicating continued investment in federal cybersecurity. The bridge suggests a delay in the main recompetes, providing additional time for strategic preparation and positioning.

WATCH ITEMS & INCUMBENT RISK

- **Incumbent Risk:**** Existing contractor relationship (Booz Allen Hamilton Inc) may influence recompetes strategy.
- **Scale Risk:**** Opportunity size and complexity will likely require strategic teaming.

RECOMMENDED ACTION

Monitor for the full competitive solicitation for the CDM DEFEND program. Understand the specific requirements for Group BD and identify potential teaming partners with relevant cybersecurity expertise.

ACTIVE CAPTURE

CDM DEFEND Group A Bridge Funding

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
47QFRA24F0005	General Services Administration	\$847.0M	2027-04-30	Caci, Inc. - Federal

Intelligence Summary

Business Event: Bridge Contract Award with Incremental Funding

Competitive Impact: Imminent Recompete (following bridge)

Program Health: Healthy

Expected Next Event: Full competitive solicitation

Similar to other CDM DEFEND bridges, this reinforces the strategic importance of the program. Incremental funding on the bridge suggests ongoing operational needs and potentially a complex, multi-faceted follow-on competition.

WATCH ITEMS & INCUMBENT RISK

- **Incumbent Risk:** Existing contractor relationship (Caci, Inc. - Federal) may influence recompetete strategy.
- **Scale Risk:** Opportunity size and complexity will likely require strategic teaming.

RECOMMENDED ACTION

Monitor for the full competitive solicitation for the CDM DEFEND program. Understand the specific requirements for Group A and the implications of incremental funding for tool purchases.

ACTIVE CAPTURE

Terminal Flight Data Manager Transition

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
DTFAWA16C00021	Department of Transportation	\$587.5M	2028-06-29	Leidos, Inc.

Intelligence Summary

Business Event: Program Transition / New Requirement
Competitive Impact: Imminent Recompete / New Opportunity
Program Health: Healthy
Expected Next Event: RFP release or detailed solicitation

This significant program transition for Terminal Flight Data Management indicates a major shift or upgrade in air traffic control systems. It represents a high-value opportunity within critical national infrastructure.

WATCH ITEMS & INCUMBENT RISK

- **Incumbent Risk:** Existing contractor relationship (Leidos, Inc.) may influence recompetete strategy.
- **Timing Risk:** Expiration window remains distant; requirements and acquisition strategy may shift.
- **Scale Risk:** Opportunity size and complexity will likely require strategic teaming.

RECOMMENDED ACTION

Engage early with FAA stakeholders to assess the technical requirements and strategic vision for Terminal Flight Data Management. Identify relevant past performance in air traffic control systems and critical infrastructure modernization.

ACTIVE CAPTURE

CDM DEFEND Group C Bridge

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
47QFRA24F0007	General Services Administration	\$136.0M	2027-04-30	Cgi Federal Inc.

Intelligence Summary

Business Event: Bridge Contract Award
Competitive Impact: Imminent Recompete (following bridge)
Program Health: Healthy
Expected Next Event: Full competitive solicitation

Another CDM DEFEND bridge, further emphasizing the program's scale and the agency's commitment to federal cybersecurity. This indicates a forthcoming competitive opportunity.

WATCH ITEMS & INCUMBENT RISK

- ****Incumbent Risk:**** Existing contractor relationship (Cgi Federal Inc.) may influence recompetete strategy.
- ****Scale Risk:**** Opportunity size and complexity will likely require strategic teaming.

RECOMMENDED ACTION

Monitor for the full competitive solicitation for the CDM DEFEND program. Understand the specific requirements for Group C and identify potential teaming partners with relevant cybersecurity expertise.

ACTIVE CAPTURE

CDM DEFEND Group E Bridge

HIGH

Executive Snapshot

PIID	Agency	Value	Timeline	Incumbent
47QFRA24F0008	General Services Administration	\$127.7M	2027-04-30	Mantech Advanced Systems International, Inc.

Intelligence Summary

Business Event: Bridge Contract Award
Competitive Impact: Imminent Recompete (following bridge)
Program Health: Healthy
Expected Next Event: Full competitive solicitation

Yet another CDM DEFEND bridge, highlighting the multi-faceted nature and significant investment in this critical cybersecurity initiative. This signals a future competitive opportunity.

WATCH ITEMS & INCUMBENT RISK

- ****Incumbent Risk:**** Existing contractor relationship (Mantech Advanced Systems International, Inc.) may influence recompetete strategy.
- ****Scale Risk:**** Opportunity size and complexity will likely require strategic teaming.

RECOMMENDED ACTION

Monitor for the full competitive solicitation for the CDM DEFEND program. Understand the specific requirements for Group E and identify potential teaming partners with relevant cybersecurity expertise.

PROGRAM ACTIVITY WATCHLIST

Monitoring internal program movements, funding alignments, and lifecycles.

Program	Why it Matters	Recommended Action
CDM DEFEND Program Possible Recompete	Multiple bridge contracts indicate a significant, multi-faceted recompile for critical federal cybersecurity services is imminent, representing a high-value opportunity.	Actively monitor GSA procurement portals for pre-solicitation notices, RFIs, and the eventual RFP release for the CDM DEFEND program.
CDM DEFEND Program Possible Recompete	Another bridge contract within the CDM DEFEND program reinforces the scale and strategic importance of this upcoming recompile in federal cybersecurity.	Actively monitor GSA procurement portals for pre-solicitation notices, RFIs, and the eventual RFP release for the CDM DEFEND program.
Wireless Modernization for Marine Corps Program Growth / Possible Recompete	A bridge contract for wireless modernization across multiple Marine Corps bases signals continued, significant investment in critical infrastructure, with a full competitive solicitation expected.	Monitor DoD procurement channels for the follow-on competitive solicitation and engage with relevant Marine Corps commands to understand specific modernization requirements.
Terminal Flight Data Manager Program Transition / New Opportunity	This program transition represents a high-value opportunity in critical air traffic control systems, indicating a major shift or upgrade in national infrastructure.	Engage with FAA stakeholders to understand the strategic vision and technical requirements for this transition, and monitor for early solicitation activities.

ISR Systems Engineering Program Transition / New Opportunity	A major program transition for critical intelligence, surveillance, and reconnaissance capabilities signals a fresh competitive landscape for significant systems engineering and sustainment work.	Engage with Air Force stakeholders to understand the full scope of this transition and monitor for pre-solicitation activities or early industry engagement events.
--	--	--

APPENDIX: KNOWN INTELLIGENCE GAPS

The following data vectors require immediate human analyst validation:

- Specific scope and requirements for the follow-on solicitations for the GSA CDM DEFEND bridge contracts (47QFRA24F0006, 47QFRA24F0005, 47QFRA24F0007, 47QFRA24F0008).
- Detailed reasons for the contract termination (47QFCA22F0018) to understand specific incumbent weaknesses and agency pain points, informing competitive positioning.
- Current incumbent performance and relationship strength for the DoD ISR/Systems Engineering transition (FA875025FB015) and the AF Weather Cloud transition (FA460024F0027).
- The exact timeline and procurement vehicle for the full competitive solicitations following the various bridge contracts.
